Introduction to Backflow Prevention

Hydraulics

Backflow Prevention Terms and Definitions

Types of Backflow Prevention Assemblies

Cross-Connection Control Program Administration

Installation Requirements for Backflow Prevention Assemblies

Field Test Procedures for Backflow Prevention Assemblies

Maintenance of Backflow Prevention Assemblies

Record Keeping Requirements

Safety

<u>This course also includes 1 week of access to our hands-on Wet Lab following the course.*</u>

*Wet Lab hours are 8am-5pm M-Th, 8am-3pm F

Upon successful completion of the training course the student is issued a certificate of completion from Water Industry Training Specialists, Inc. Contact hours are also provided upon completion of the course.

WITS is privileged to host the AWWA Backflow Assembly Tester Recertification exams at our facility in Sunnyvale. Please see course calendar for exam dates. Please note: the cost of this course DOES NOT include cost of AWWA exam. Water Industry Training Specialists, Inc. has no affiliation with AWWA. All exam applications and fees must be sent directly to AWWA.
